Would you take another course with this instructor? \*

- Yes
- No

Has the instructor been effective? \*

Yes, I feel like the instructor was very effective.

How can the instructor improve this course? \*

As a person who has never studied about Africa before (the only time I remember learning about Africa prior, was about ancient Egypt or about colonization) so I found it a bit difficult to follow the conflicts in Africa. In a way, I didn't exactly know where to start when it came to deepening my understanding of the issues in Africa and/or how the situations differ from country to country, so perhaps it might be more useful to give a quick overview about the regions in the beginning of the course.

How does this instructor compares with your other instructors? \*

I think that this instructor allows for more chances of people to share their thoughts and opinions which I think is very good. I am shy to share my opinions in a group discussion setting, so I am glad that I can still contribute by writing on centimeter.

Is there anything peculiar/special about this instructor (negative or positive)? \*

I like how this instructor brought up many questions so that we can think about many angles to the situations brought up.

How can the instructor improve this course? \*

Make students more active in reading and considering the matter during the class (some of the students were not participating in the class at all in a discussion or in a class) -> to increase students' understanding, reading could be shorter to read deeply within a week for preparation

How does this instructor compares with your other instructors? \*

Very kind and always careful for students

Is there anything peculiar/special about this instructor (negative or positive)? \*

always positively rephrasing students' opinion to an opinion with academic argument even if it was not well explained, that helped me to understand theories related to International Relations.

Has the instructor been effective? \*

Very much.

How can the instructor improve this course? \*

If it is possible, it would be better to have the breakout room session for discussion more often. I know there is too much to explain from professor in the first place, but it would be nicer to have a bit more of opportunity for output, rather than pile of input by the weekly compulsory readings.

How does this instructor compares with your other instructors? \*

I believe professor is more comprehensive of our businesses. He never pushes us to do certain learning or assignments, but rather encourage us.

Is there anything peculiar/special about this instructor (negative or positive)? \*

Professor explains the topic of that day with concise vocabulary but never fails to convey the necessary lesson or information for us. Besides, there is always a opportunity to express our ideas in some form.

Has the instructor been effective? \*

Yes, constructive comments have been provided and there are also connections with other topics that isn't necessarily about Africa that is being shared as well.

How can the instructor improve this course? \*

I would like it if we have break out room sessions more often, so I could at least get to know my other classmates more and that we can practice speaking too.

How does this instructor compares with your other instructors? \*

More enthusiastic on the course, and effectively presents the opinions of my classmates even if it is hard for some of us to voice it out. He's also easier to approach and ask questions to since he answers it enthusiastically too.

Is there anything peculiar/special about this instructor (negative or positive)? \*

He gives us very interesting questions (both in terms of question construction and the topic of the question), I often discuss it with my other friends outside of class. He can change or at least make you think more about your previous knowledge in the topic and makes you more curious of what other people think about it as well.

Yes. His class was well organized and comfortable to attend the course.

How can the instructor improve this course? \*

I thought how he asks students for their views through mentimeter was very good for students, especially for those who are not confident with their English, since they can take time to think and write it down.

How does this instructor compares with your other instructors? \*

I thought he shows respects to the students a lot compare to other instructors, and that made us comfortable to learn the subjects.

Is there anything peculiar/special about this instructor (negative or positive)? \*

The professor is special in positive way that while he showed respects for the students, he also gave feedbacks and counterarguments for students' views so that we could think more critically.

Has the instructor been effective? \*

Yes. Professor asked questions using menti, and it was comfortable and effective for me to answer.

How can the instructor improve this course? \*

The course was so great.

How does this instructor compares with your other instructors? \*

I am not good at English. In other classes, often, I find myself difficult to follow because of my English skill. However, in this class, unless I read reading materials before the course, it was not difficult to follow the course. However, the questions professor asked through menti made me think a lot. This class was good for me because it is not too difficult to follow, but it made me think a lot.

Is there anything peculiar/special about this instructor (negative or positive)? \*

Professor used menti, and it was really good for me to express my opinion. In other classes, I can't say something except in the breakout room or in the presentation because I'm too shy. However, in this course, I had opportunities to express my thoughts, and it was great.

Please add any other comment/suggestion/message.

Thank you very much. I want to take another class in the future.

- Yes
- No

Has the instructor been effective? \*

Yes, I think including watching some short video during classes is very helpful for understanding.

How can the instructor improve this course? \*

I felt this course is a bit difficult for those who did not take the foundation courses of IR especially in discussions, but that may be my problem.

How does this instructor compares with your other instructors? \*

Storyline or the way he speaks is very clear and he thinks kindly about those who did not take the foundation class of IR theory. Also, he has many valuable knowledges or experiences. Therefore, his classes are very interesting and I think he is a very good teacher.

Is there anything peculiar/special about this instructor (negative or positive)? \*

He is generous for English mistakes and his stance is not memorizing things but think about what we learn, these are good.

yes, the readings were just the right amount and the theme of each class was very clear.

How can the instructor improve this course? \*

I'm sorry but I thought the class was very good.

How does this instructor compares with your other instructors? \*

using mentimeter was unique, and I appreciate it since for international relations is a very complicated topic. When asked of an opinion one by one non-anonymously about IR, I am afraid to speak out because I have small knowledge and it may be offensive(such as supporting too much Japan unconsciously, since I grew up in Japan). It was easier to express my honest thoughts. And the readings were not too hard, not too large in amount and was just right. If it is too large since I am a slow reader I do not have time to read for example two chapters(about total 40 pages).

Is there anything peculiar/special about this instructor (negative or positive)? \*

I enjoyed seeing other's reaction through mentimeter. This style makes it clear what are the majority opinion, and it is easier for the professor to choose good opinions and talk about it(which was also very interesting)

Has the instructor been effective? \*

Yes, especially in that I learned how to think of certain issues in a more critical point of view

How can the instructor improve this course? \*

Maybe it is better if you can give clearer guidelines on the presenter and respondent? I felt like there were a lot of cases where the respondent didn't seem to be prepared enough - maybe because they didn't exactly know what to do?

How does this instructor compares with your other instructors? \*

Mentimeter? I feel like using mentimeter is way more efficient especially for online courses since in some other courses professors keep asking if there is any comment or opinion even if no one really seems to say something or are not willing to speak in public

Is there anything peculiar/special about this instructor (negative or positive)? \*

I really loved listening to your past experiences in the United Nations, and I am certain those stories make your class more interesting

How can the instructor improve this course? \*

I am not sure, but maybe I cannot understand the accent/pronunciation of graduate students who are from Africa. I understand it's my fault though. But, in my opinion, not only me, some of the non-native English speaker were hard to understand their English especially the first guy.

How does this instructor compares with your other instructors? \*

I am not a native English speaker, and his English is easier to understand for me than other teachers.
