How can the instructor improve this course? However the readings we are required to do has little relevance with the PPT in class so I'm confused on what knowledge are we actually required to master. Also I think midterm questions are too broad and hard to assess, honestly. I feel like there's a cram of information instructed in class. A little bit over-crowded of info in my head.

How does this instructor compares with your other instructors? He is VERY prepared for instruction and very professional, thank you so much.

Is there anything peculiar/special about this instructor (negative or positive)? Maybe professor can design activities in class or homework to help us remember informations more.

I think mentimeter is effective in knowing other's opinions but creates an atmosphere that makes it hard for us to speak up in class

How does this instructor compares with your other instructors? _____

When students are too shy, other instructors often asks students to form a small group and have discussions. Then they ask what each groups have come up with.

Is there anything peculiar/special about this instructor (negative or positive)? _____

I took this class partly because the syllabus said the course will have active student participation, so I was disappointed to find that there are no discussions (verbal ones). I hoped to listen to opinions of others and discuss them. Mentimeter simply lets me know their opinions but we are not able to discuss them further
